

Central Command Module

Get ready to experience simple, faster fueling.
Reducing delays while streamlining the process.

REDUCE GATE DELAYS WITH FASTER FUELING

Quick Diagnostics

Onboard diagnostics pinpoints problems quickly.

Instructions

Simple fueling instructions for quicker gate turns, reducing delays.

On-Job Training

Visual operator training makes the next step more intuitive.

Standard 8.4" high resolution color touch screen display

AVOID COLLISIONS & IMPROVE OPERATOR SAFETY

Camera Vision

Back-up and position camera equipped. 360 degree camera capable.

Safety Incident Logs

Log interlock overrides, E-stops, high DP

Industry Leading Safety

MORE UPTIME & LESS MAINTENANCE

Vehicle Info

Access to on-board vehicle diagnostics.

IOT ready

With industry standard open protocols.

Connectivity

Download system incident logs.

Smart Repair

Sensor-controlled repair instructions and troubleshooting guide.

Call now for available inventory.
